TRAVEL YOU CAN FEEL

*Good About*

Y Travel and Belmond share the belief that the time to change the way we travel is now; that the future of the planet and the future of the travel industry are interchangeable. Both brands are committed to mitigating the impact of climate change by championing travel that is big on experience and small on impact; travel you can feel good about.

With each booking, they encourage their clients to travel with consideration, and seek to empower them to explore the world in a way that combines their passions with purpose. They believe that if people connect with a destination on a personal level, they're more likely to be inspired to protect it and to transform the way they traverse the planet.

Through their innovative Y Factors and carefully curated itineraries, Y Travel endeavour to create a more considered global travel movement where we all work together to support the places we visit and their local communities. Y Travel and Belmond believe it's time to travel impactfully and intentionally.
